IDCE Graduate Programs

IDCE offers four distinct, yet interlinked, master of arts degrees:

- International Development and Social Change
- Environmental Science and Policy
- Community Development and Planning
- Geographic Information Science for Development and Environment

Environmental Science and Policy (ES&P)

ES&P faculty bring to the program expertise in three signature topical areas:

- Climate, Energy, and Sustainability
- Environmental Management and Policy
- Environment and Human Health

Program Details:

- 12 courses required
- Two years full-time study
- Part-time study possible
- Merit-based tuition-remission fellowships available from the IDCE Department

Dual Degree Programs: A Partnership with Clark's Graduate School of Management:

- Master of Arts in Environmental Science and Policy/Master of Business Administration: 3 year program
- Master of Arts in Community Development and Planning/Master of Business Administration: 3 year program
